INTRODUCTION

Practice Seminar on Sustainable Waste Management

How to set up an appropriate system of waste collection, sorting, resource recovery and its financing

Led by
Walter HAUER
Mechanical Engineer
M.rer.soc.oec. Business Administration
Mediator
www.tbhauer.at

Method for the Practice Seminar

There are 5 pillars of individual benefit and professional learning offered within this unique practice seminar:

1. Seminars taught by senior experts and facility operators
2. Visits to facilities where waste collection, sorting and recycling takes place in state-of-the-art manner
3. Explanation of general conditions and how to find fitting solutions
 - i. From an economic point of view
 - ii. From a technical point of view
 - iii. From an organizational point of view
4. Considering varying initial situations of participants
5. Room for discussion and exchange of experiences
